

PROOF — Phase 1, Prompt 5 of 6

Pricing Page • /pricing

CONTEXT

The landing page already has a pricing section (PricingSection.tsx) with both tiers. The dedicated /pricing page expands on that — more room to breathe, a full feature comparison, trust-building elements, and the FAQ integrated below. This is where someone lands when they're ready to seriously evaluate whether Proof is worth paying for.

The content and pricing must match the landing page exactly. The design gets more space and detail but the core message is the same. If a user navigates from the landing page #pricing anchor to this dedicated page, nothing should feel contradictory.

PAGE STRUCTURE

Route: src/app/pricing/page.tsx

Access: Public (visible to everyone — this is a conversion page)

Layout: Full page with Navigation + Footer. Centered max-width container (1000px). 120px+ top padding below nav.

Section 1: Page Header

- Eyebrow: "PRICING" in standard amber uppercase treatment (DM Sans, 12px, letter-spacing 0.15em, var(--color-accent-amber))
 - Title: "Choose Your Proof" in Fraunces (--font-playfair), 48px desktop / 32px mobile, var(--color-cream)
 - Subtitle: "Two ways to hunt. One clear choice." in DM Sans 16px, var(--color-text-secondary), centered
 - All centered. Generous spacing below (48px) before the cards.
-

Section 2: Pricing Cards

Two cards side by side on desktop, stacked on mobile (Bottled in Bond on top on mobile). These must match the landing page content exactly but with more visual refinement.

Standard Proof card (the secondary option):

- Tier label: "STANDARD PROOF" in DM Sans 11px, uppercase, letter-spacing 0.15em, rgba(245,237,214,0.4)
- Price: "\$10" in Fraunces 56px, var(--color-cream). "/mo" beside it in DM Sans 16px, rgba(245,237,214,0.4)
- Annual note: "\$80/year · save 33%" in DM Sans 13px, rgba(245,237,214,0.3)

- Background: `rgba(255,255,255,0.03)`, border: 1px solid `#2A2520`, border-radius 16px
- CTA button: ghost style — transparent bg, 1px border `rgba(196,148,58,0.35)`, amber text. Hover: border brightens, subtle bg fill
- Button text: "Start Hunting — \$10/mo"

Standard Proof features (checkmark list):

- Instant drop alerts — email + SMS
- Unlimited watchlist
- Full hunt map with store-level data
- Warehouse & shipment tracking
- Secondary market pricing
- Historical drop patterns
- Community store intel

Checkmarks in muted color (`#5A5550`). Feature text in DM Sans 14px, `rgba(245,237,214,0.7)`. Each feature row separated by a thin border-bottom `rgba(255,255,255,0.04)`.

Bottled in Bond card (the hero — visually dominant):

- "FOUNDING MEMBER" badge: position overlapping the top edge of the card, centered. Amber gradient bg (`#C4943A` to `#E8C170`), dark text (`#1A1510`), DM Sans 10px bold, uppercase, letter-spacing 0.15em, padding 6px 16px, border-radius 4px
- Tier label: "BOTTLED IN BOND" in DM Sans 11px, uppercase, `var(--color-amber-rich)`
- Price: "\$69" in Fraunces 64px, `var(--color-amber-rich)`. "one-time" beside it in DM Sans 16px, `rgba(245,237,214,0.5)`
- Tagline: "Lifetime access. No monthly fees. Ever." in DM Sans 14px, `var(--color-cream)`, weight 500
- Scarcity note: "Exactly 100 spots. When they're gone, they're gone." in DM Sans 13px, italic, `rgba(196,148,58,0.8)`

Scarcity progress bar:

- Label row: "Founding spots remaining" (left, DM Sans 11px, muted) + "100 / 100" (right, JetBrains Mono 11px, amber)
- Bar: 4px height, dark track (`rgba(255,255,255,0.08)`), amber fill (`var(--color-amber-rich)`)
- Animate fill from 0% to 100% on scroll into view (Framer Motion, 1.2s ease-out)
- Subtle pulse glow on the bar (use existing `barPulse` keyframe from `globals.css`)

Bottled in Bond features:

- Single line: "✓ All Standard Proof features, forever" with amber checkmark, DM Sans 14px, `var(--color-cream)`, weight 500

- Divider: centered line with "FOUNDING MEMBER EXCLUSIVES" label in DM Sans 10px, uppercase, rgba(196,148,58,0.5)

Founding member exclusives (amber checkmarks):

- Inner Circle — private founding Telegram
- Numbered Glencairn Topper (#001–100)
- Permanent Founder badge on your profile
- Exclusive sticker pack
- 2× entries in all future drawings
- Social proof line above CTA: "Become the first founding member." in DM Sans 13px italic, rgba(245,237,214,0.55), centered
- CTA button: solid amber gradient (linear-gradient 135deg, #C4943A to #D4A44A), dark text (#1A1510), DM Sans 16px bold, padding 16px, full width. Hover: brighter + shadow glow.
- Button text: "Claim Your Spot — \$69"
- Below button: "Secure checkout · Lifetime access · Never pay again" in DM Sans 12px, rgba(245,237,214,0.35), centered

Card styling:

- Background: rgba(196,148,58,0.06)
 - Border: 2px solid var(--color-amber-rich)
 - Border-radius: 16px
 - Subtle border pulse animation (use existing borderPulse keyframe from globals.css)
 - Hover: translateY(-3px) + amber box-shadow glow
-

Section 3: Feature Comparison Table

Below the cards, add a detailed side-by-side feature comparison. This is what the landing page pricing section doesn't have — a comprehensive breakdown that answers every "what do I get?" question.

Design: NOT a traditional HTML table. Use a styled card-based comparison layout.

- Section header: "Compare Plans" in Fraunces 28px, cream, centered
- Two columns: Standard Proof | Bottled in Bond
- Column headers fixed at top of the comparison section
- Rows grouped by category with subtle category headers

Feature categories and rows:

Alerts & Tracking:

- Drop alerts (email + SMS) — Standard: ✓ | BiB: ✓
- Real-time alert speed — Standard: ✓ | BiB: ✓
- Unlimited watchlist — Standard: ✓ | BiB: ✓
- Warehouse shipment tracking — Standard: ✓ | BiB: ✓

Intelligence:

- Bottle Library (MSRP + secondary) — Standard: ✓ | BiB: ✓
- Hunt Map with store data — Standard: ✓ | BiB: ✓
- Historical drop patterns — Standard: ✓ | BiB: ✓
- Community store intel — Standard: ✓ | BiB: ✓

Founding Member Exclusives:

- Lifetime access (no monthly fees) — Standard: ✗ | BiB: ✓
- The Inner Circle (private Telegram) — Standard: ✗ | BiB: ✓
- Numbered Glencairn Topper (#001–100) — Standard: ✗ | BiB: ✓
- Permanent Founder badge — Standard: ✗ | BiB: ✓
- Exclusive sticker pack — Standard: ✗ | BiB: ✓
- 2× entries in all drawings — Standard: ✗ | BiB: ✓

Row styling:

- Alternating subtle bg shade on rows (rgba(255,255,255,0.02) on even rows)
- Check marks: amber for BiB column, muted for Standard. X marks: dim red-gray.
- Category headers: DM Sans 11px uppercase, amber, letter-spacing 0.1em, with a thin border-bottom
- Feature names: DM Sans 13px, var(--color-text-secondary)
- Founding Member Exclusive rows: slightly warmer bg tint to visually group them

Mobile: On screens below 768px, switch to a stacked layout where each feature is a row showing the feature name with two small pill indicators (Standard / BiB) instead of side-by-side columns.

Section 4: Value Reinforcement

A section below the comparison that reinforces why Proof is worth paying for. Not salesy — factual and confident.

- 3 stat cards in a horizontal row, centered
- Card 1: "43+" (JetBrains Mono 32px, amber) + "Bottles tracked" (DM Sans 13px, muted)
- Card 2: "100+" + "NC ABC stores monitored"
- Card 3: "Minutes" + "From drop to your phone"
- Use count-up animation on scroll (same as existing StatCard pattern)

- Below the stats: a single centered line — "Built by bourbon hunters, for bourbon hunters." in DM Sans 14px italic, `var(--color-text-secondary)`
 - Card style: dark inset bg, no border, border-radius 12px, padding 24px. Subtle and clean.
-

Section 5: FAQ

Import and render the existing FAQ component from `src/components/sections/FAQ.tsx`. It already has the accordion styling and content. Do not rebuild it — just import it.

- Render below the value reinforcement section
 - The existing FAQ component handles its own padding and max-width
 - Verify it looks correct in the context of this page (spacing above/below should be consistent with other sections)
-

Section 6: Final CTA

A clean closing section at the bottom of the page, above the footer. One last conversion push.

- Centered layout, no card wrapper
 - Heading: "The hunt starts now." in Fraunces 32px, `var(--color-cream)`
 - Subtext: "100 founding spots. \$69. Lifetime." in DM Sans 14px, `var(--color-text-secondary)`
 - Single CTA button: "Claim Your Spot — \$69" in solid amber gradient style (same as BiB card CTA)
 - Below button: "7-day money-back guarantee. Cancel anytime." in DM Sans 12px, `var(--color-text-tertiary)`
 - Keep it minimal — 3 lines of text and a button. No cards, no repeat of features.
-

LANDING PAGE INTEGRATION

The existing landing page has a PricingSection that anchors to `#pricing`. Keep it. The landing page pricing section is a preview; this `/pricing` page is the full experience. However, the "Get Access" button in the nav and any pricing-related CTAs throughout the site should link to this `/pricing` page, not `#pricing` on the landing page.

- Update Navigation.tsx: "Get Access" button href from `"#pricing"` to `"/pricing"`
 - Update Navigation.tsx: "Pricing" nav link href from `"#pricing"` to `"/pricing"`
 - Landing page PricingSection: keep as-is with `#pricing` anchor (it's still useful for direct scroll)
 - Bottles page blur wall CTA: link to `"/pricing"`
 - Any other "Claim Your Spot" or "Start Hunting" buttons across the site: link to `"/pricing"`
-

MOBILE DESIGN (BELOW 768PX)

- Cards: stack vertically. Bottled in Bond card on TOP (order-1 on mobile via flex order), Standard below.
- Card padding: reduce from 36px to 24px
- Price font: reduce Fraunces from 56/64px to 44/48px

- Feature comparison: switch from two-column to stacked row layout (feature name + two small pill indicators)
 - Value stat cards: stack vertically or 1-column, centered
 - Final CTA heading: reduce to 24px
 - Page horizontal padding: 20px
 - Section gaps: 40px between sections (not 64px)
 - All buttons: full width on mobile
 - The Founding Member badge: remains above the card but scales down slightly
-

FILES TO CREATE / MODIFY

Create:

- `src/app/pricing/page.tsx` — Main pricing page
- `src/components/sections/PricingCards.tsx` — The two pricing cards (can extract from existing `PricingSection.tsx` or rebuild with refinements)
- `src/components/sections/FeatureComparison.tsx` — Detailed side-by-side comparison
- `src/components/sections/ValueStats.tsx` — 3 stat cards + tagline
- `src/components/sections/FinalCTA.tsx` — Bottom CTA section (can reuse existing `FinalCTA.tsx` if it exists, or rebuild)

Modify:

- `src/components/Navigation.tsx` — Update "Get Access" and "Pricing" links to `"/pricing"`

Do not add new npm packages. Reuse existing components (FAQ, StatCard patterns) where possible. All content must match the landing page pricing section exactly — same prices, same features, same tier names, same copy. If there's a discrepancy, the content in this prompt takes precedence.
